

**LEGEND**

- access road
- artisanal mining area
- artisanal mining area Oct.2012
- 2011 rock sample location  
rock sample ID
- 2010 vertical channel sample
- 2012 rock sample location  
rock sample ID
- Value in grams per tonne gold
- Value in ounces per ton gold
- eluvium - quartz frags in hematitic soil
- dolerite - flat lying dykes
- biotite-quartz-feldspathic metasediments
- quartz vein stockworks
- pegmatite
- microgranite
- biotite granite

**POTENTIAL GOLD BEARING MATERIAL**

20m depth yields 89.2 million tonnes of prospective material  
 40m depth yields 178.5 million tonnes of prospective material  
 60m depth yields 267.8 million tonnes of prospective material
